

Dotty Six

2+ players

You will need:

- Paper
- Pen/pencil (2 different colours if possible)
- 1 die

Skills used in the game:

- Addition to 6
- Comparing and finding the difference with numbers to 6.
How many more do you/I need?

Aim of the game:

- Take it in turns to roll the die.
- Draw that number of dots into one of the boxes on the grid.
- You **can't** split your dots over several boxes, they must all stay together.
- Boxes **can't** contain more than 6.
- The person who completes the box with 6 dots, wins the box and can put their initial in the corner.
- Whoever has the most boxes at the end is the winner.

D		

- ➔ To make it harder - Dotty 12 (same rules and resources, make 12 instead of 6)
- ➔ To make it even harder - Dotty 20 (two dice, make 20 in each box).
