

<i>Foundation Stage</i>	<i>Step 1 (Emerging)</i>	<i>Step 2 (Expected)</i>	<i>Step 3 (Exceeded)</i>	<i>End of Year Expectations</i>
<i>Design</i>	<i>I enjoy experiencing different resources, techniques and materials.</i>	<i>I explore and experiment with different designs, textures, forms and functions.</i>	<i>I develop my ideas and make decisions about the process I will use.</i>	<i>I develop my ideas and make decisions about the process I will use.</i>
<i>Make</i>	<i>I use different tools to shape, join and assemble materials.</i>	<i>I safely use a variety of materials, tools and techniques.</i>	<i>I construct with a specific design in mind and use the most appropriate method.</i>	<i>I construct with a specific design in mind and use the most appropriate method.</i>
<i>Evaluate</i>	<i>I adapt my work where necessary.</i>	<i>I experiment with form and function to improve my work.</i>	<i>I make decisions and change my work to improve it.</i>	<i>I make decisions and change my work to improve it.</i>
<i>Technical Knowledge</i>	<i>I enjoy experiencing a range of techniques.</i>	<i>I safely explore a variety of techniques.</i>	<i>I know about a variety of different techniques.</i>	<i>I know about a variety of different techniques.</i>
<i>Cooking and Nutrition</i>	<i>I eat a healthy range of food and understand need for variety.</i>	<i>I know the importance of a healthy diet and can talk about ways to keep healthy.</i>	<i>I can make healthy choices in relation to healthy eating.</i>	<i>I can make healthy choices in relation to healthy eating.</i>

<i>Year 1</i>	<i>Step 1 (Emerging)</i>	<i>Step 2 (Expected)</i>	<i>Step 3 (Exceeded)</i>	<i>End of Year Expectations</i>
<i>Design</i>	<i>I can talk about what I am going to make using design criteria.</i>	<i>I can draw the design of my idea following the design criteria.</i>	<i>I can draw and annotate my design to explain my ideas.</i>	<i>I can draw and annotate my design to explain my ideas.</i>
<i>Make</i>	<i>I can begin to use different methods to create my design.</i>	<i>I can create using some different methods.</i>	<i>I can create using some different methods and am beginning to explain my choices.</i>	<i>I can create using some different methods and am beginning to explain my choices.</i>
<i>Evaluate</i>	<i>I can talk about my own design thinking about what is good and some improvements.</i>	<i>I can talk about my own using design criteria.</i>	<i>Discuss their own work and others using design criteria.</i>	<i>Discuss their own work and others using design criteria.</i>
<i>Technical Knowledge</i>	<i>I can talk about some materials, mechanisms, how to make designs stronger using some technical language.</i>	<i>I can talk about materials, mechanisms, how to make designs stronger using some technical language.</i>	<i>I am beginning to know about different materials, mechanisms, how to make designs stronger using technical language.</i>	<i>I am beginning to know about different materials, mechanisms, how to make designs stronger using technical language.</i>
<i>Cooking and Nutrition</i>	<i>I know some different food types and can talk about healthy food.</i>	<i>I know about different food and where it comes from.</i>	<i>I can talk about where different food comes from, how to prepare it and how to eat healthily.</i>	<i>I can talk about where different food comes from, how to prepare it and how to eat healthily.</i>

<i>Year 2</i>	<i>Step 1 (Emerging)</i>	<i>Step 2 (Expected)</i>	<i>Step 3 (Exceeded)</i>	<i>End of Year Expectations</i>
<i>Design</i>	<i>I can talk about what I am going to make thinking about making it purposeful, functional and appealing.</i>	<i>I can draw the design of my idea and think about the materials and components.</i>	<i>I can make models of my design and think about the user's needs.</i>	<i>I can make models of my design and think about the user's needs.</i>
<i>Make</i>	<i>I can create using some different methods.</i>	<i>I can create using a range of methods, materials ensuring that I am safe.</i>	<i>I can create using a range of different methods accurately and explain my choices.</i>	<i>I can create using a range of different methods accurately and explain my choices.</i>
<i>Evaluate</i>	<i>I can talk about my own and others designs thinking about what is good and some improvements.</i>	<i>I can talk about my own and others work using design criteria.</i>	<i>Discuss some existing products and their own and know about how it has been made.</i>	<i>Discuss some existing products and their own and know about how it has been made.</i>
<i>Technical Knowledge</i>	<i>I am beginning to know about materials, mechanisms, how to make designs stronger and some technical language.</i>	<i>I know about materials, mechanisms, how to make designs stronger and some technical language.</i>	<i>I know about a range of different materials, mechanisms, ways to make designs stronger and technical language.</i>	<i>I know about a range of different materials, mechanisms, ways to make designs stronger and technical language.</i>
<i>Cooking and Nutrition</i>	<i>I know where food comes from and can talk about different types of food and how to eat healthily.</i>	<i>I know about different food and where it comes from and can use different preparation methods.</i>	<i>I know about food and different preparation methods and can talk about why it is healthy.</i>	<i>I know about food and different preparation methods and can talk about why it is healthy.</i>
