

School Council Meeting

Date:	Agenda	Minutes	Action Points
20/11/2023	Continuing off from our last meeting (16/10/2023) What is going well and how can we improve?	- The children fed back that they were happy to be learning new skills as they now had the opportunity to be playing different sports at lunchtimes. Today was basketball and three of our school council had taken part. The children would like to take part in more Cross-country events. - We completed our discussion about having music played outside and discussed the importance of being considerate to our neighbours at school so spoke about making `good choices` with what was going to be played. Maybe a competition, so we will look further into games that be played around music. - The children fed back to me about the tools that they had in class if they had any worries.	- Mr South kindly joined our meeting so the children were able to put their great ideas forward to him. He has already purchased speakers so we are just waiting for them to be installed. A playlist of music will be monitored. We spoke about music playing continuously and then when it finishes the children will know that break time is over. - I have asked the children to speak with their friends to see if there is anything they would like raised in our next meeting.
