

School Council Meeting

Date:	Agenda	Minutes	Action Points
16/10/2023	How can we best support the children's well-being at school? What is going well and how can we improve?	There was a lot to discuss and the children were full of ideas. • New playground equipment is popular and the children are enjoying using it. • Children would like to have some calming music played outside sometimes, when the library is full they would like some books for the outside area they seem to have disappeared. • They would like to be shown how to play different games outside to help develop their social skills and work together with their friends. • An area where they can go if they have no one to play with, buddy bench or buddy stop. • Having a bench undercover outside where they could sit in the winter with a blanket and read. • We spoke about having a worry monster or a worry box in class as children said they can't always express how they are feeling but may find it easier to write down or draw.	• We agreed that further discussion is needed and we will continue to cover this in our next meeting. • I have asked the children to go back to class and discuss it with their friends and to bring their feed back to the next meeting. • Once completed we will discuss with Mr South.
