

School Council Meeting

Date: 09/03/2023	Agenda	Minutes	Action Points
	Childrens Wellbeing in the Outdoor Classroom?	The children discussed how happy they were that the Outdoor classroom is now being used at breaktimes and the difference it has made to the childrens wellbeing. They suggested that they would like to have some different activities in there, cookery was a popular choice and we discussed allergies and costing so then a suggestion of it being an after-school club idea for the future like the children used to have. The children enjoy reading and painting in there already. The children thought of parasols for the surrounding area by the classroom so children can sit in the summer with their friends and take part with these activities and have a quiet space for them to sit in the shade. Design some posters for the Quad area to brighten it up. I spoke to the children about a project I would like to introduce them to ` Kindness Rocks`.	• Have a discussion with Mr South about some parasols. • Design some posters for the Quad.
