

School Council Meeting

Date:	Agenda	Minutes	Action Points
10/10/2022 How can we positively impact the wellbeing of the children in the outside area?		• Children are enjoying the new trim trail. • Some children said they would like chalk for their hands as it can be slippery when they are using it (I explained how we have to be more careful in the upcoming months as it is becoming colder and wetter so equipment will be slippery). • A one-way system. • Laminated signs on the equipment explaining how many people should be on it at one time. • The children are checking in at break/lunchtimes with children in the playground making sure everyone is okay and they have a friend to play with. • Discussion about the buddy bus stop and the Reading shed.	• Continue discussion further next time about buddy bus stop/Reading shed and possible resources for being more creative. • Speak to class teachers to make sure that their class is confident in using the trim trail and know how to use it safely.
