

School Council Meeting

Agenda	Minutes	Action Points
19.11.24	We went to look at the space for the allotment and talked about what the allotment was to be used for. The children have been asked to design the space so that it became a useable area. Could we grow our own produce etc. The children have taken away plans and will design the space. We will create a display board in the Year 6 corridor. The council will also come up with some questions to pose to different members of staff that Mr South could possibly use in a newsletter.
