

School Council Meeting

Agenda	Minutes	Action Points
21.05.26 Environment Council - The Hive	In today's Environment Council meeting we took our photos to add to light switches as a reminder to turn these off. Watch out for these being added to classroom! Councillors also discussed the following: • Reminding pupils not to ride bikes and scooters on the school grounds as this can be dangerous in the mornings and after school when there are lots of people including young children. • Litter pickers are becoming damaged so we need to remind pupils how to use the properly. • Some children would like there to be a coned off area for the scooters so other games can go on at the same time without the worry of the scooters. They also suggested creating a little obstacle course with cones for the scooters. • Environment council members will ask their classes about games they'd like in Zone 1 as they feel that participation has decreased because they've been playing the same sports.	• Ask Mr South to mention points 1 and 3 in celebration assembly before the end of term. • Environment Council to ask their classes and report back to me at our next meeting.
