

Environment Council Meeting

Date: 20.3.26	Agenda	Minutes	Action Points
How can we be more environmentally conscious?		Many members of the Environment Council noticed that lights were being left on unnecessarily. I have tasked the representatives to be in charge of turning the lights off in their classrooms. The children also asked to have their photos by the lights in rooms with a phrase as a reminder to all.	Mrs Matheou to take photos of the EC reps, laminate photos and then the EC reps can place these in every room.
Has the litter on the playground improved with the new litter-pickers?		The EC representatives acknowledged that there has been a significant decrease in the amount of litter on the playground following the new litter pickers. They said lots of children enjoy doing this but they may just need a reminder in assembly to use these safely.	Mrs Matheou to ask Mr South to mention this in celebration assembly as a reminder to pupils.
Food Waste Bins		We have noticed some children still forgetting to put their food waste in the correct bins. The EC were keen on leading a follow-up assembly as a reminder to pupils.	Mrs Matheou to schedule in an assembly for the EC to deliver.

Environment Council Meeting

	<u>Any other business:</u> • Can we create an initiative to encourage people to walk to school? • We are looking forward to planting things now that the weather is nicer.
