

School Council Meeting

Agenda	Minutes	Action Points
02.10.25 The Hive - Environment Council	We began by introducing ourselves and explaining why we wanted to be part of the Environment Council. Then, we discussed our ideas and what we'd like to achieve for the year. These were the things that we mentioned: - Planting more flowers and trees. This is especially around the outdoor classroom as there are many empty raised beds. One of our representatives mentioned that it would be nice if this was offered during lunch time. - Encourage more people to walk to school by introducing walking initiatives (e.g. rewards systems). - Make sure there is a pupil voice suggestion box so that everyone can voice their opening and then the school council can act upon this. - More School Council assemblies so we can share exactly what we're doing to the whole school. - Update the School Council to reflect pupil voice and how this has been acted upon.	Discuss gardening during lunch with Mr South Ask Mr South to purchase a box for pupil voice. Ask Gabby and Mrs Black to consider encouraging their councils to lead more assemblies. Create posters as a council to share what we want this to look like.
