

Date: 20.1.23	Agenda	Minutes	Action Points
	After the school council had designed their banners, we were now going to collate their ideas and create a digital banner.	Ideas shared and banner created with the environment council so that it can be printed. They added in feedback about having a sign with the fumed coming out of the car and a cross going through it. See banner attached below.	Contact companies to print the banner. Assembly to be delivered by the council once the banners have arrived.
