

Date: 25.11.22	Agenda	Minutes	Action Points
	Meeting with Mrs Chinnappa to discuss the air-quality issues in Larkfield.	In today's meeting, we met with Miss Chinnappa, who is the Geography subject leader in our school. We discussed the air-quality issue in our local area and how many cars leave their engine on when they're dropping off and collecting pupils. We shared our ideas with her about how we can promote cars to stop idling and turn their engines off. We shared our posters with her too.	Create digital banner that can be printed to go at the front of the school.
